

Landscape Preservation Publications *FREE!*

Terra Firma: Putting Historic Landscape Preservation on Solid Ground is a new series of publications aimed at municipal staff, historic commission members, friends groups and others involved in the stewardship of historic landscapes. The first issue, *Terra Firma #1 – An Introduction to Historic Landscape Preservation* provides an overview

of landscape preservation practices and strategies, as well as resources for further information, technical assistance and relevant funding sources. This is an excellent resource for those who care for and about historic landscapes.

Terra Firma #2 – Caring For Mature Trees in Historic Landscapes provides guidance on the identification, care, and replacement of trees that add significance and character to historic landscapes. Special topics related to mature trees in historic landscapes such as balancing preservation with public safety, tree removal and appropriate replacement, and caring for trees in historic burial grounds provide

the public with the basic tools for caring for these often overlooked historic resources.

Terra Firma #3 – Identifying and Protecting Historic Roads ushers us through the process of identifying historic roads, documenting their characteristics, and protecting them through legal avenues available within the Commonwealth. In this edition, recognizing threats such as inappropriate zoning is paired with discussions

about liability and protections such as the Scenic Roads Act; while a series of success stories from Provincetown to Mount Greylock illustrates the resources, methodologies, and results of preserving historic roads.

Share your enthusiasm for landscape preservation with others!

The Historic Landscape Preservation Grant Program postcard series – a set of nine, sepia-toned, historic and current photographs of historic landscape grant recipients. Email

can be so impersonal – send a friend a handwritten note on one of these great cards!

Celebrate the Legacy – 20 years of Landscape Preservation in Massachusetts, a foldout poster timeline. Add color and information to your cubicle!

Please indicate which publication(s) you would like to order. Mail your completed form to: Shaun Provencher, Department of Conservation and Recreation, 251 Causeway Street, Suite 600-700, Boston, MA 02114 or email shaun.provencher@state.ma.us
